Among the minor questions that remain about this copy of the many different Xeroxed copies of assorted versions that were Xeroxed of Xerox copies, is ~~that~~ the fact that it does not bear the identification of File 77. That is described in the "list of basic source materials" as of Secret Service origin and the "Clinical Records of Autopsy submitted by Memorandum dated...12/20/1963". Now that description exactly fits this copy. The copy is from File 77 does not bear the file identification even if it does not have the post-shooting autopsy
